SGI

Founded in 1972, Sakkara Group International (SGI) is a family-owned organization built on the concept of quality service and a friendly and time-tested approach to our business.

Throughout the Group's many years of experience, SGI has grown into new fields and become one of the premier conglomerates in the country.

With operations in tourism, hotels, Nile cruises, real estate, and retail, the Group is diversified across a number of fields to ensure a quality investment for our investors and an exceptional experience for our guests.

Zen

Following the success of the hotels operations, SGI launched the hotels' operating chain "Zen" handling currently the operations of 5 Nile cruises and one Red Sea resort. We plan to expand our operations to include not only our owned hotels but other hotels and cruises as well.

The word Zen is derived from the concept of creating balance in life through meditation and relaxation. The choice of name was based on the fact that all our properties are proposing this type of atmosphere, located directly on the sea or floating through the peaceful river Nile.

Nile Cruises

History comes to life on the shores of the Nile

At the heart of our portfolio lies our 5 Nile Cruisers. For thousands of years, visitors have come to Egypt to experience the magic of one of history's most important rivers. Throughout the cruise, sail to some of the country's most important destinations including Aswan, Kom Ombo, and the numerous temples and sights in Luxor. All tours are conducted with certified Egyptologists passionate about their love for Egypt and its national heritage.
